2011-01-18 In this profound and illuminating work, Joseph Cardinal Ratzinger turns the gaze of an accomplished theologian upon the crucified Savior. This synthetic and meditative work is theological without being abstract or dry, and spiritual without being sentimental. The pierced heart of Christ must be the heart of theology and Christian life as well. Proceeding from the prayerful dialogue between the Incarnate Son and his Eternal Father, Joseph Ratzinger shows how one can approach the mystery of the Heart of Christ only through the imitation of this prayer. To

know and understand Jesus we must participate in his prayer. The prayer of Christ must be the interior life of all who are joined to him in his Body, the Church. Using the Old and New Testaments and the Church Fathers, Ratzinger shows that the ecclesial community (the Church) was born from the pierced Heart of Christ on the Cross. 1992-11-01 Since earliest times, humanity has pondered the incomprehensible mysteries of the universe,

life...and the afterlife. In The Stairway to Heaven, the second book of Zecharia Sitchin's Earth Chronicles series, the author answers these fundamental questions: Was there somewhere on Earth where, after death, mortal man could join the immortal Gods? Where was this place? By whom was it established? And does it still exist today? After years of painstaking research--combining recent archaeological discoveries with ancient texts and artifacts--Sitchin has identified the legendary Land of the Gods, and provided astounding new revelations about the Great Pyramids, the Sphinx, and other mysterious monuments whose true meanings and purposes have been lost for eons. The Earth Chronicles deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. 2009-09-03 The phrase, the Culture of Death, is bandied about as a catch-all term that covers abortion, euthanasia and other attacks on the sanctity of life. In Architects of the Culture of Death, authors Donald DeMarco and Benjamin Wiker expose the

Culture of Death as an intentional and malevolent ideology promoted by influential thinkers who specifically attack Christian morality's core belief in the sanctity of human life and the existence of man's immortal soul. In scholarly, yet reader-friendly prose, DeMarco and Wiker examine the roots of the Culture of Death by introducing 23 of its architects, including Ayn Rand, Charles Darwin, Karl Marx, Jean-Paul Sartre, Alfred Kinsey, Margaret Sanger, Jack Kevorkian, and Peter Singer. Still, this is not a book without hope. If the Culture of Death rests on a fragmented view of the person and an eclipse of God, the future of the Culture of Life relies on an understanding and restoration of the human being as a person, and the rediscovery of a benevolent God. The personalism of John Paul II is an illuminating thread that runs through Architects, serving as a hopeful antidote. Still this is not a book without hope

His Son's Big Doll introduces the tortured soul inside a walking advertisement, and in Xiaoqi's Cap a dissatisfied pressure-cooker
